The purity and precision of wines terroirs are enhanced using wild yeasts and low additions of sulfites. His wines have vibrancy and freshness typical of the natural grape varieties of the region.

Marico's Vinho Verde wines have freshness, minerality, richness and are fruity. The wines from the estate close to the border of Spain in Douro Superior Márcio vinifies only quality grapes from 80-year-old vines to produce aromatic wines with freshness, fruitiness, and balanced acidity.
